

**PUBLIC NOTICE OF A CLASS 3 PERMIT MODIFICATION**  
**Techalloy Company Inc.**  
**2500 A Street, Perris, California**

**PUBLIC COMMENT PERIOD:** January 18, 2006 to March 6, 2006

**PUBLIC MEETING:** Pinacate Middle School, on February 14, 2006 at 6:30 p.m.

We invite you to review and comment on an application for a proposed Class 3 permit modification submitted by Techalloy Company Inc. The Techalloy facility located at 2500 A Street in the city of Perris and in Riverside County. It produces high quality specialty steel wire for the aerospace and related industries. The permit modification, if approved, will redefine the facility's size from 101 acres to slightly over 20 acres. The 81 acres being removed from the facility have never been part of the facility's operational area. The facility treats on site waste consisting of spent processing solutions through a process of precipitation, filtering, and evaporation. The secondary liquid is evaporated through an evaporation tower and the filter cake is shipped off-site for disposal. Until recently, this process was regulated by a Resource Conservation and Recovery Act (RCRA) permit.

The facility is set in an industrial zoned area of Perris. Techalloy is bounded on the north by Mapes Road to the east by A Street, the south by Watson Road, the west by River Road. South and southeast of the property is zoned as agricultural and is actively farmed. North and west of the property are zoned as residential/agricultural and are sparsely populated. Nearby and north of the property are two schools; a family development center and an elementary school, there is also a park northeast of the property.

Our agency is the California Department of Toxic Substances Control (DTSC). Our mission is to protect public health and the environment by regulating the treatment, storage, and disposal of hazardous materials.

In addition to the 45-day comment period, we are holding a public meeting to give you more information on the proposed permit modification, to take written and oral comments and to answer questions from the community. The meeting will be held on February 14th at 6:30 p.m. at the Pinacate Middle School (multi-purpose room) located at 1990 S. A Street in the city of Perris.

We encourage you to review and comment on the Class 3 permit modification during the 45-day comment period of January 18, 2006 to March 6 2006. Please send written comments to Robert Romero, DTSC Project Manager, 5796 Corporate Ave., Cypress, CA 90630 at 714-484-5316 or [rromero1@dtsc.ca.gov](mailto:rromero1@dtsc.ca.gov). All comments must be submitted in writing or via electronic mail and must be postmarked or received via e-mail no later than March 6, 2006. Should you need additional information, please contact Robert Romero by email or telephone. Para información en español por favor contacte Leticia Hernández al (714) 484-5488.
